

Reaching new heights in health care.

Carson Valley Health 2022 Community Benefit Report.

Carson Valley Health (CVH) is continuing on a path of expansion and growth and 2022 was a year we started to see our expansion plans come to life. The first phase of our three-year expansion project was complete with the unveiling of our newly expanded Rehabilitation and Outpatient Therapy Center. Along with this success, CVH opened a Specialty Clinic with Urology and Physical Medicine & Rehabilitation, as well as added a new primary care location at Ironwood. In August, the first robotic-assisted surgery was performed at CVH using the da Vinci system. This machine is part of an ongoing effort to increase the surgical treatment options for our patients. We are proud of our progress, but our attitude is - let's keep climbing.

It is an exciting time to be at the helm of CVH. As we move forward to meet the growing needs of our area, we will also keep demonstrating commitment to our core values of respect, integrity, compassion, and excellence in every decision we make. Find more details in this report about our year.

Jeff Prater
Chief Executive Officer

2022 CVH Leadership and Board of Directors

Leadership

- Jeff Prater, MHA, FACHE, Chief Executive Officer
- Colleen Reid, Chief Financial Officer
- Evan Easley, MD, Chief Medical Officer
- Shannon Albert, Chief Operating Officer
